Discover unparalleled customization with Orbiter Med by Kalogon, a custom designed and fabricated cushion tailored based on client measurements up to 27", clinical history, and activity. Create the cushion that best supports your patient's needs with Orbiter Med's unique solutions including a completely customized cross-linked foam base topped with a viscoelastic foam layer, an Advanced Pressure Management System, and a 4-way stretch fluid resistant cover.

The Advanced Pressure Management System (APMS) uses a combination of machine learning and air-cell technology to intelligently redistribute weight for the user. The customizable air-cells allow users and clinicians to fine-tune their pressure levels and optimize their seating experience with the Kalogon App. The dynamic surface adapts to your needs, targeting pressure redistributions around the pelvis and thighs, ensuring unparalleled comfort.

Orbiter Med is designed with postural support options based on clinician recommendations. Additional custom modifications include:

- Pre-Ischial Ridge
- Posterior Lateral Pelvic Supports
- Medial Thigh Support
- Lateral Thigh Supports
- Scrotal Well
- Leg Length Discrepancy
- Gluteal Extension

Please contact representatives of Kalogon Inc. for any questions regarding this order form or the Orbiter Med Cushion and its customization options.

- Medial Thigh Support (MTS-00-1)
- Two Lateral Thigh Supports (LTS-00-1)

POSTERIOR LATERAL PELVIC SUPPORT \$295.00 (Check if requested) Т To qualify for E2609 you must choose a custom measurement for both right and left sides J side **Right Side Dimensions** Right I: 1" 3" 2" LeftSide Left Side Dimensions J: 2" 3" 1"

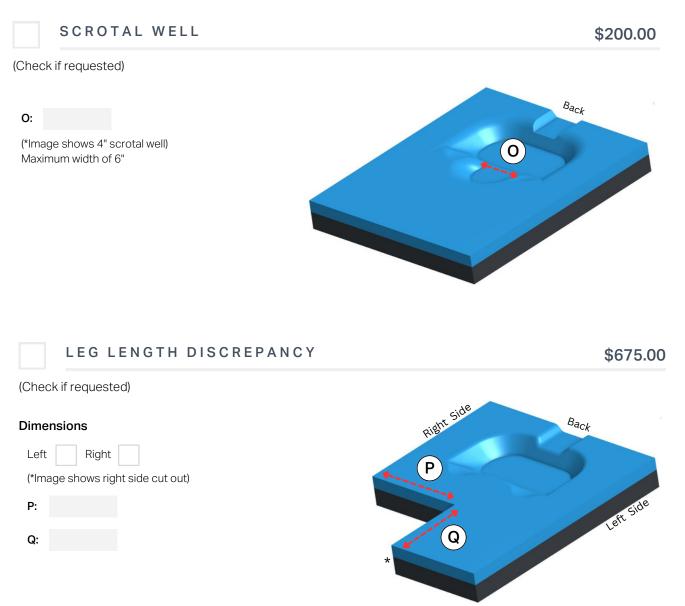

Quote Request

Additional Customizations

Default cut width is half the distance of the cushion width. Leg Length Discrepancy customizations may affect other customization dimensions. Please use the comment section on Page 7 for additional requests.

Extended Size Customizations Only

GLUTEAL EXTENSION

\$215.00

(Check if requested)

| K: 1 2 3 | |
|-----------------|--|
| | |

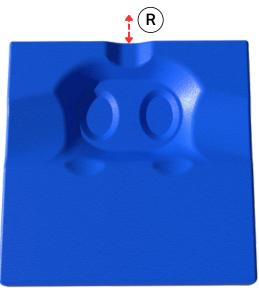

The pelvic well is positioned 1.5" from the back of the cushion without this customization.

NOTES:

Gluteal Extension does not affect the position of the LPSs relative to the pelvic well.

Gluteal Extension length will be added to the cushion length specified on page 3.

Example: 24" Cushion Length + 1" Gluteal Extension = 25" Overall Length

Front
